				Task Name	Start Date	End Date	Duration
1				**Testing Pre-existing Emulator**	**10/30/15**	**11/05/15**	**5d**
2				Compiling Yane	10/30/15	11/03/15	3d
3				Testing Yane with a simple instruction set	11/03/15	11/04/15	2d
4				Testing Yane using NESTest	11/04/15	11/05/15	2d
5				**Programming knaves-nes to read ROM files**	**11/05/15**	**11/13/15**	**7d**
6				Understanding how ROM files are written	11/05/15	11/09/15	3d
7				Program knaves-nes to break down files into respective parts	11/09/15	11/11/15	3d
8				Display the instructions as they are read	11/12/15	11/13/15	2d
9				Readable ROM files	11/14/15		
10				**Program the CPU to interpret all instructions**	**11/15/15**	**11/24/15**	**8d**
11				Hard Code all possible 6502 instructions in a table	11/15/15	11/20/15	6d
12				Program CPU to convert 6502 instructions	11/20/15	11/24/15	3d
13				**Test Knaves-NES**	11/25/15	11/30/15	4d
14				Test the emulator using a CPU test ROM file	11/25/15	11/27/15	3d
15				Fix all Bugs that cause errors	11/28/15	11/30/15	2d
